

Sushi Rice (pressure cooker)

INGREDIENTS

- 2 cups short-grained rice
- 2 cups water
- 2-inch piece kombu
- 1/4 cup rice vinegar
- 2 tablespoons sugar
- 1 teaspoon salt

DIRECTIONS

1. Quickly, wash rice thoroughly with water until water runs clear. Let the washed rice drain for 5-10 minutes before cooking.
2. Place drained rice, kombu, and water in the electronic pressure cooker. Cook on high for 0 minutes and then allow natural release for 20 minutes.
3. While rice is cooking, warm vinegar in microwave for 1 minute. Stir in sugar and salt, until dissolved. Let cool before using.
4. When the rice is done, discard the kombu and spread the rice out in a large wooded, glass bowl, or parchment lined baking sheet.
5. Using a wooden or plastic spatula, cut and fold the rice (avoid stirring or compressing the rice) while drizzling the vinegar mixture over the hot rice. Fan the rice while mixing to help it cool.
6. Gently place rice in a bowl, if needed, and cover with a damp towel until ready to use.
